the leader in
technology

INTRODUCTION

The ever-changing automotive industry leaves many challenges for companies like **STRADO** to stay competitive and ahead of the latest technology in order to deliver a world class service to customers.

This also means that the technical complexity of today's trucks introduces an endless supply of new parts and applications. The industry demands better quality products at competitive prices and most of all, expects an uncompromising dedication to dependable service.

Since we opened our doors, Strado has met that challenge and has enjoyed a reputation as the **industry leader** in **quality workmanship** and **customer satisfaction**. Our spirit of **discipline** and **perfection** is what separates us from the ordinary remanufacturer to one with a world-class reputation.

The **STRADO** brand and logo continues to strive to be the benchmark for the utmost in quality, service and dependability.

All of our parts are remanufactured to meet the strictest tests to assure performance equal to or better than manufacturing specifications. **STRADO** provides our customers with a trouble-free support system, state-of-the-art up to date remanufacturing technology, a professional sales force and technical specialists ready to assist you whenever problems or questions arise.

Our workshop facility has internationally renowned **JOSAM** realignment equipment in place, which makes us one of the few companies in South Africa to deliver such a world class service to our customers.

Over the past few years we have built up a working relationship, second to none, with most insurance companies, and have an excellent reputation throughout the remanufacturing and automotive industry for quality workmanship.

efficient and approachable, to achieve the ultimate goal: Customer Satisfaction

VALUES

- Our people
- Accountability
- Teamwork / camaraderie
- Understanding customers
- Reputation
- Care

- Safety
- Integrity
- Technology
- Precision
- Customer focus

REMANUFACTURING

Remanufacturing is the process of disassembly and recovery at the module level and, eventually, at the component level. It requires the **repair or replacement** of worn out components and modules. Parts subject to degradation affecting the performance or

the expected life of the whole are replaced. Remanufacturing differs from other recovery processes in its completeness: **a remanufactured cab or truck should match the same customer expectation as new cabs or trucks.**

precision

FACILITIES

The **carefull selection** and **intense training** of our employees has given **STRADO** a renowned reputation for craftsmanship. Our work centre has the following departments:

- Body Repair
- Trailer Refurbishing
- Realignment
- Paint Refinishing
- Parts and Fitment
- Rebranding

Every supplier we select is chosen to match the **strict quality control systems** we operate by, and by using the world recognized **Josam Systems**, we are committed to providing the finest Truck and Trailer Remanufacturing service, backed up by the best available paint and refinishing processes.

STRADO is geared to ensure **complete customer satisfaction** and to ensure your Truck or Trailer is always returned to you in the quickest possible time.

RE-ALIGNMENT

To apply with all manufactures standards STRADO makes use of state of the art straightening systems from the renowned Swedish suppliers; JOSAM™
